

Demigod Prediction by Manoj Kaushal

DemiGod Prediction
Rewrite Reality... TWICE

Not just another mind-reading effect, DemiGod is a breakthrough in prediction magic. Created by the name you already know, Manoj Kaushal, this revolutionary method lets you predict any symbol, number, name, or object in a way so clean, it feels impossible.

Effortless for you, Unbelievable for them

Your spectator freely names a word, number, symbol, or object. You casually write it on one side of a stack of business cards for clarity. Then, in a moment of pure astonishment, you flip the stack, peel off a post-it note, and reveal your prediction written long before they even made their choice.

The Detail that Changes Everything

When you reveal the prediction, it's not just correct-it's impossibly distinct. The font, size, and style of the revealed prediction are completely different from what you wrote earlier, creating a moment of pure impossibility. It's not a carbon-copy. It's not a duplicate. It's a true prediction and they'll never see it coming.
