

Anniversary Hertz by Jon Allen

There is nothing more powerful in magic than an effect with a truly personal touch and meaningful presentation.

Anniversary Hertz takes a well-known premise to a whole new level in a personalized three-phase routine. The items used guarantee people will care right from the start.

A couple give each other their personalized heart; they both match their partner's choice and finally both individual hearts become a single, personalized heart. This is given to the couple as a truly personal keepsake.

There are times when a magic trick becomes something more than just a magic trick. When so much meaning is offered in the props, presentation and overall imagery, it has a lasting, emotional impact on people. **Anniversary Hertz** is the perfect example.

Anniversary Hertz is simple to perform and is a perfect routine for weddings and anniversaries. It offers an experience, and keepsake, the couple will cherish forever.

You receive a white velvet bag, two reusable red, acrylic hearts and 10 giveaway hearts.
