

Concerning the Palming of Cards by John Galsworthy - Buch

An in-depth exploration of one of card magic's most fundamental techniques, presented by a contemporary expert.

It is widely acknowledged that card palming is a cornerstone of card magic. However, many magicians limit themselves to elementary palms and steals. While this might be adequate for some performers, others will eventually find themselves prevented from achieving the breathtaking card magic they desire.

With **Concerning the Palming of Cards**, modern card palm master John Galsworthy teaches a comprehensive range of innovative palming techniques. By refining and modernizing classic techniques, John equips you with a broad set of palms that allow you to tackle nearly any scenario.

No stone is left unturned across the 150 pages of **Concerning the Palming of Cards**. John meticulously explores every nuance of the mechanics-from precise finger positioning to different variations-while also examining the underlying motivation for each move. This detailed teaching is enhanced by exceptional color photographs and a comprehensive reference guide.

Teaming up with Vanishing Inc., the world's leading producer of magic books, John has created a stunning linen hardcover that will instantly become an essential resource in your library. **Concerning the Palming of Cards** is the type of book you'll find yourself frequently revisiting.

Regardless of your experience or skill level, this expert guide is beneficial for all magicians. Secure your copy of **Concerning the Palming of Cards** today!
