

Add Your Number - Bühnentrick

The performer displays five elegant acrylic cards, each with a different number from 1 to 10 on each side. The numbers change depending on the visible side, allowing for a myriad of possible combinations.

The cards, red on one side and yellow on the other, are handed to the spectator, who freely inserts them into a special stand while the performer turns away.

Once all the cards are placed, the numbers are completely hidden from view. Yet, without asking any questions and without ever looking at the cards, the performer turns back and instantly announces the correct total of the chosen numbers!

The audience can even verify the result with a calculator: the sum is always correct!

A lightning-fast, visual, and astonishing effect. Perfect for parlour or stage magic.

- Easy to perform
- No stooges
- No electronics
- No forcing
