

KARATE CAP (Red) by Taiwan Ben

A classic of magic reimagined for today's street artists. One of the most powerful acts of force is taking an everyday object and transforming it right before your spectator's eyes. Taiwan Ben has taken the Karate Coin concept to a new level. Imagine removing the cap off of your favorite drink (or from someone else's), tossing it in the air and stabbing your finger through it! Then... giving the cap out for examination!!

KARATE CAP would make Bruce Lee envious of your skills! The effect is extremely easy to learn and perform and will last a lifetime.

Comes in three colors (red, black and white caps sold separately).
