

Rubik's Colors by Pilato

Pilato presents **Rubiks Colors**, a magic trick designed especially for children's shows. We've taken the classic "Cups from Two Plates" idea and revamped it, presenting it in a more modern and engaging way for children: using two colored boxes, a very familiar object.

The idea is simple but powerful: you tell the audience that colors can create anything you imagine. At that point, you tell them that you imagine creating Rubik's cubes. And that's where the magic begins. With very simple movements, you begin to surprisingly produce giant-sized Rubik's cubes, one after the other, while the children applaud and are amazed.

Rubiks Colors is ideal for children's parties and on stage. It's a fun visual effect designed to capture the attention of the little ones. It's very easy to perform, doesn't require complicated techniques, and allows you to focus on the presentation and connecting with the audience. It's also very portable and lightweight, perfect for traveling shows or magicians looking for versatility.

The Set Includes

- 2 boxes of Rubik's Colors
- 3 giant Rubik's Cubes
- A step-by-step instructional video

Rubik's Colors is now available to magicians around the world.
