

FULTON'S T.S.O.L. DANCE WITH ME PLAYING

This is the most punk rock deck of playing cards ever made. A tribute to the OG Punk Legends from SoCal whose debut LP "**Dance with Me**" inspired a generation of counterculture artists from skaters to singers. My personal favorite punk album of all time.

This official deck of cards is completely custom. Every card is meticulously curated and designed to pay tribute to a bygone era where flyers were the advertisement of choice to spread the word. This deck features flyers from the archives of legendary skateboard artist Chicken Deck who collected them from 1979-1983 around Orange County California.

The court cards feature full blown flyers rarely seen and each custom pip was created from actual scans of these archives of punk history.

The tuck box features spot uv gloss and bold gold foil richly embossed to truly covet the epic cover art. This will stand out on any shelf and impress anybody you play a game of poker with.

These are officially licensed and were made in close collaboration with Jack Grisham.

Printed in China on premium cardistry stock.
