

LUCKYMAN by Mickael Chatelain

Discover without further delay the three effects that Mickael offers you today...

3 effects achievable with **LUCKYMAN!**

1st effect: "Passage"

Show your spectators a box of TIC-TAC candies! There are two candies inside: one red (fruit flavor) and one white (mint flavor). For example, take the white TIC-TAC out of the box... The box is closed again!

Bring it close to the box and it will pass through the box and end up back in it! **IMMEDIATELY submit the whole thing for examination; there's nothing to see! Absolutely nothing!**

2nd Effect: "Oil and Water"

Perform the famous « oil and water » effect with 8 TIC-TAC (4 red and 4 white). Your spectator places the TIC-TAC one by one into the box!

Invite them to shake the box to mix the 8 candies thoroughly!

Once thoroughly mixed, retrieve the box, open it, and turn your head...

Put 4 candies into your hand. Just like the oil and water, you've separated the 4 red TIC-TAC in your hand from the 4 white TIC-TAC remaining in the box! **Once again, give them all to examine... There's nothing to see!**

3rd Effect: "Signature"

A box of TIC-TAC and a marker! Put a TIC-TAC into your spectator's hand and ask them to sign it.

Your spectator then places the TIC-TAC back into the box.

Invite them to close the box and shake it to mix all the TIC-TAC inside.

Turn your head and open the box. Put a single TIC-TAC into your hand. Open your hand; it's the spectator's TIC-TAC, and it's signed! **Feed them if you wish,**

and above all, give them all for the exam!
