

## Snooker Sorcery by Wayne Dobson

If you liked Spectrualist then you are going to love **Snooker Sorcery...**

Based on the trick Wayne did with Alex Higgins (world class snooker player (UK)).

Four bags are handed out to four spectators. Four snooker balls are freely chosen and then hidden out of sight from the performer in their bag.

Each of the small bags are collected in a bigger bag and mixed.

The performer then takes a bag out, takes the snooker ball out and immediately knows who the ball belongs to.

Spectrualist on steroids. This trick can be done close up, parlor and on stage.

Comes complete with 4 small bags, one larger bag and 4 colored snooker balls.

**Bonus:** Learn Wayne's cuing system to get your pal, a stranger or the CEO to know what balls belong to what spectator, just like Alex did.
