

Blink Vanish (DVD and Gimmick) by SansMinds - DVD

There are numerous classic card effects involving a torn corner. There's only one thing missing -- a perfect visual vanish, until NOW.

SansMinds Creative Lab collaborated with creative talent Robert Lupu from Romania to bring you **Blink Vanish**.

Blink Vanish is a vanish that looks like real magic.

It is super direct.

It is extremely bold.

The end result is deadly.

You need this if you want people to believe that you are a real wizard!

Check it out for yourself.
