

Pocket Riser by Martin Schwartz

At last Dr. Schwartz has developed the Perfect Cards to Pocket with a comedy twist.

The selected card slowly rises from your lapel pocket. But wait! It's the wrong card.

No worries. A magical pass with your hand over the rising card and it magically changes to the selected card which can be freely shown on both sides.

This astonishing effect is totally mechanical.

And easy to do. The precision gimmick does all the work for you. A must have comedy effect. Complete with precision gimmicks and video instructions.
