

## Multi QR by Pilato

### MULTI QR

is a modern take on the classic multiplying dots trick. Reimagined by Pilato, this effect replaces traditional dots with QR code-like designs, creating a strong, modern, and fascinating visual impact. With just two metal faces and a magnetic system, the performer can display from 1 to 6 quadrants. It's ideal for children's shows, educational shows, corporate shows, and visual magic.

It's a perfect magic tool for performers seeking originality, impact, and modernity without losing the essence of classic wonder.

#### Package Contents:

- 1 Metal tablet with QR design
- 6 Magnetic quadrants
- Step-by-step visual manual

*"I used it at a school fair, and the kids weren't just amazed; they were intrigued by the 'magic QR codes'! It's perfect for capturing attention and explaining concepts in a fun way."*
