

Jumping Key Chain

A card with two holes at one end is shown. A carabiner with a key hanging from it is attached through one of the holes. Ask the spectators to keep their eyes on the carabiner with the hanging key. After a magical gesture, the carabiner and key visibly jump from one hole to the other—right before their eyes! At the end, remove the carabiner and enjoy the applause!

- Automatic.
- Very easy to perform.
- Invisible! Up close, nothing can be seen!
- The carabiner and key pass from one hole to the other—in plain sight! Truly in plain sight!

Note: the key is not provided. Use your own, or, if you prefer, you can borrow one from a spectator during each performance and return it at the end.
