

Have a Drink

The magician presents a folder, he opens it to show the picture of an empty wine glass. After closing it he introduces a glass full of red wine or raspberry juice. Presto! He pours the entire drink inside the folder without any splash! Then he opens the folder & wow the picture of the empty wine glass is now full of the red liquid. Now he reverses the action as pouring out the liquid physically from the folder to the glass. What happened to the picture? Opening of the folder shows that the picture of the wine glass is now empty again.
