

Savant Deck by Craig Petty and Lloyd Barnes

Superhuman calculations. Surgically Clean Card Divinations. Unforgettable Mysteries.

Impossible.
Powerful.
Pure Magic.

Magic's Batman & Robin, *Craig Petty & Lloyd Barnes* are back with one of the most powerful and versatile gimmicked decks that we've ever seen.

The **Savant Deck** is a specially gimmicked deck of cards that gives you the ability to perform tricks that LITERALLY cannot be achieved with any other method. Not even by the best sleight of hand artists in the world.

Master magician level tricks. Beginner level ability.

This is just ONE trick that the **Savant Deck** can do:

You never touch the deck. With your back to the audience, the cards are shuffled as many times as they wish. The participant then cuts as many cards as they want and spreads them face up on the table. Counting down from 3... 2... 1... you turn back for less than ONE second and immediately calculate the total value of all of the face up cards on the table.

The card values are totaled up and your lightning fast calculation is revealed to be EXACTLY right.

Best of all, you can instantly repeat this and every time it's a different result!

And that's one of over a dozen different effects that we teach you to get you up and running. What's more is that the tricks are all totally different in effect. From book tests, to magic squares. ACAAN's to pocket change predictions. There's really not much The Savant Deck cannot do.

The most powerful thing that our team love to do with The Savant deck is this perfect card trick that fools EVERYONE.

This is exactly what happens...

Your back is turned. An audience member takes the deck of cards and shuffles it as much as they want under the table. They take a card and hide it in their pocket. The rest of the cards are returned back to the box. Instantly you know the exact identity of their card. Every time. Instantly repeatable. Totally impossible.

Normally you could only do this type of trick with a stacked deck but that means the deck can't be shuffled. With The Savant Deck you can really let your audience shuffle the cards until they're fully satisfied.

The **Savant Deck** is a full deck of cards. Every card in the deck is there. There are no duplicates.

- Printed by the USPCC.
- Standard Red Rider back design - no markings to spot.
- Deck can be fully examined. In fact, we encourage it.
- Takes advantage of a classic principle that we all know and love.

Become a master of math. A ruler of playing cards. An expert at the card table. All with ease and simplicity.

This, is The **Savant Deck**.

- **John Morton** - Official Penn & Teller Fooler

"Utterly amazing not only do I not have a clue, I cannot even think of a method that would allow you to do this. That's floored me! Not a clue!"

- Wayne Goodman

"The Savant Deck is a full show in your pocket! Is a tool that will allow you to perform mind blowing routines that will leave your audience speechless! If you want to perform crazy mind stunts or mind demonstrations, the Savant Deck is for you!"

"Ummmmmmmm. Wow. It speaks for itself...This is heavy doc! The Savant Deck is going to be massive"

- Chris James

"It doesn't take a genius to sum up that this project is gold! This is impossible looking card magic rooted in underlying devious principles that will fool and amaze"

- David Jonathan

"It's been a LONG time since I've been this excited about a piece of card magic. After learning the method, I literally had the biggest ear to ear smile. My favorite gaff decks are the ones that can be handled as a normal deck, examined as a normal deck, shuffled as a normal deck... but contain a secret so diabolical that it annihilates every spectator you show it to!"

- Kyle Purnell

"That's the best kind of feeling-when a method hides in plain sight and still slips by undetected! The Savant Deck is a beautifully deceptive tool, and the cleverness is often in its simplicity and structure. I can't wait to start using it"

- Marc Oberon

"This deck fakes more talent than most other magicians probably have - puts my performances on EASY MODE. I can finally feel like Peter Turner!! First I gotta work on the accent.."

- Dalton Wayne
