

Guillotine Finger Card - Bicycle

Three Bicycle playing cards, all with a hole in the center, are shown: two jokers and a queen of hearts. The magician places the queen between the two jokers, aligns the packet, and pulls up the queen. You ask a spectator to put a finger through the holes in the jokers, and after a moment of suspense, you push down the queen firmly, just like the blade of a guillotine! Magically, the queen will pass through the spectator's finger and align perfectly with the other two cards!

- A striking and portable effect that you'll love carrying it with you.
- The cards are original Bicycle, and the trick is easy to perform and fun to present.
- In the end, everything can be examined. The explanations include a solid method for this. A convenient cardholder is also provided.
