

Shutter Frame by Massimo & TCC Magic

Born from Massimo's brilliant idea,

a perfect fusion of classic ingenuity and modern visual magic: introducing the Shutter Frame. It changes the spectator's card in a flash, faster than lightning.

With its DIY functionality, the Shutter Frame does far more than just reveal a chosen card. It opens up a world of visual magic possibilities, including:

- **Card-to-cash transformation**
- **Color change**
- **Instant penetration through the frame**
- **Card black hole effect**

...and much more. Its modular design invites you to unleash your creativity and develop unique effects tailored to your own routines.

Crafted from premium-grade aluminum alloy, the Shutter Frame is built to last. The material ensures durability and a refined appearance. Sized to standard poker dimensions, it's ideal for everyday carry.

Its internal mechanism allows full DIY customization, with a specially designed mold included to make the setup simple.

Beyond basic card transformations, the included tutorial explores advanced applications such as:

- **Transforming cards into cash**
- **Color-changing an entire deck**
- **Card-through-frame penetration effects**

Features

- **Highly visual effects, easy to perform**
- **Durable aluminum alloy construction**
- **Standard poker size-portable and practical**
- **Fully customizable DIY setup**

Includes

- 1x Shutter Frame main unit
- 1x Special mold for card customization

Note: Playing cards not included. A simple DIY setup is required using your own card before performing.
