

SUB-CHANGE by Patricio Terán and JT Magic (Red)

SUB-CHANGE

is a novelty and highly visual effect. The magician steps on a Joker card, and then asks the spectator to select a card. In an instant, the Joker under the magician's foot visually transforms into the spectator's chosen card. You can even perform a version where the spectator's card and the Joker under your foot switch places!

Advantages:

- **Unique & Eye-Catching** - A card change underfoot is rare and always amazes audiences.
- **Highly Visual, Yet Practical** - A stunning transformation effect that's easy to execute.
- **Easy to Learn** - Anyone can master it in just one minute!
