

Non-Safety Pins by Juan Colàs

Created by Juan Colas, the mind behind HEARTBEAT, NON-SAFETY PINS is proof that the classics aren't dead - they've just been upgraded.

- 100% Examinable – Yes, seriously. Before, during, after.
- Zero Switches – What they see is what they get.
- Special Pins Included – Precision-made.

Link. Unlink. Hand them out. This is NON-SAFETY PINS.â€" A 100% examinable linking pins routine that ends where all great magic should... in their hands.

Forget switches. Forget ditching. These are *the* pins.â€"Specially made and included in every set.

Start with the pins on your shirt. Pluck one off, then another, and before they know what's happening - you're melting metal through metal right in front of their eyes.

They inspect them before. They inspect them after. They find nothing. Because there's nothing to find.

This isn't just a cool trick - it's a worker. A close-up miracle that fits in your pocket and fools even magicians.

You'll Learn:

- Juan's visual, multi-phase routine.
- The timing, the subtleties, the misdirection.
- How to make the impossible happen in their hands.
- A clean finish so strong it feels illegal.
