

Chronos Reel by Matteo Pittenger

Unleash real magic at your fingertips with the **Chronos Reel**, the ultimate hidden utility device. Expertly engineered to fit discreetly under your watch, this compact electronic reel is your secret weapon for astonishing animations.

Powered by a **rechargeable battery** and activated by a **concealed button**, the **Chronos Reel** includes a reliable **delay feature**, giving you full control over the perfect moment to trigger your miracle. Once activated, **it silently reels in lightweight objects**, allowing you to create stunning levitations, vanishes, and animations that seem utterly impossible.

Key Features:

- Ultra-slim design fits invisibly under your watch
- Electronic reel system with delay
- Smooth, quiet retraction of invisible thread
- Rechargeable battery for extended performances
- Simple activation switch for seamless execution

Designed and built in New Jersey
