### Effects

- **Twisting the 13** You twist the 13 cards from Ace to 4 and flip over the Ace. After a magical gesture, when you spread the cards again, the face-up card has changed to the 2. A shake changes it to the 3, then another shake to the 4.

Strangely, shaking once more reveals a 5. Each shake continues the progression - 6, 7, 8, 9... and finally, the cards in your hands have changed to 10, Jack, Queen, and King.

- **Shelf Twist** The 13 cards flip over one by one, and in the end, they magically transform into four Kings.
