

Angel's Flight by Andrew and Ednei Ernesto

The magician shows the back of a card. In a moment, one of the Bicycle angels, printed on the back of the card, vanishes from the center and reappears at the top edge! The magician tries to grab it with his fingers, but the angel escapes to the opposite side!

The magician attempts to catch it again, but the angel moves to the side edge and finally returns to its original position in the center of the back!

Amaze your audience with an incredible magic trick that defies logic!
