

Mini Lock Box by Vincenzo Di Fatta

This beautiful version is made with a brand-new system designed by Vincenzo Di Fatta, which, compared to the traditional version, allows for a thorough inspection of the box.

Without the supplied gimmick, it will be absolutely impossible for spectators to discover the secret!

Borrow a ring, a watch, or another item from a spectator, make it disappear, and then show a beautiful wooden box.

The box is completely closed and secured with a padlock. Hand it confidently to the spectators—there's nothing they can discover. You can even give them the keys to the padlock and let them open it themselves.

Inside the box, the spectator will find their very own personal item.

A CLASSIC AND ELEGANT CLOSE-UP EFFECT.

- The trick is very easy to perform.
- Box dimensions: 6.5 cm x 5 cm (height).
- The box is handcrafted from teak wood.
- Box dimensions: 6.5 cm x 5 cm (height).
- A padlock is also included.
