

The Colorful Box by Didier Clement & TCC Magic

A wooden box sits before the audience, an envelope tucked beneath it. When the magician turns around, spectators freely choose a colored stick from the box one by one -until none remain. The magician opens the envelope to reveal five cards... and **the order of the colors perfectly matches the spectators' selections.**

This is **The Colorful Box**, an elegant effect by Didier Clement.

The entire wooden box and sticks are made from premium **North American black walnut**, exquisitely crafted and highly collectible.

The core gimmick is hand-inlaid, and the interior is **meticulously soundproofed**, ensuring a completely silent operation for flawless mind-reading, prediction, and other effects.

Best of all? **No sleight of hand or skill is needed.** The secret works automatically the moment a stick is removed!

The front of **The Colorful Box** features an intricately carved vintage pattern, exuding classic elegance. The back adopts a clean and sophisticated brick-textured design, both beautiful and deceptive, perfectly hiding the secret within.

Use the included custom-designed cards to perform a stunning color-match routine, or expand into one-to-one, one-to-many, and other creative presentations.

Features

- **Automatic method:** silent and easy to perform
- **Crafted from premium walnut wood:** elegant and durable
- **Hand-finished details:** each piece is one of a kind
- **Clever hidden mechanism:** invisible to the audience, adaptable for many routines

Includes:

- Specially crafted black walnut wooden box —1

- Colored wooden sticks (red, white, blue, yellow, green) 1 each
- Special gimmick 10
- Set of 5 color-matching custom cards

Note:

As with all natural wood products, grain patterns and coloration will vary. Slight fit variations may occur due to humidity. If a stick fits too tightly, gently sand the base with fine sandpaper for a perfect fit.
