

The Adventures of Winston Freer CD by Miracle Factory

Long-lost impossibilities from magic's genius inventor

Winston Freer (1910-1981) was one of magic's cleverest inventors. Current innovators like Gaetan Bloom consider him a genius and a hero. U. F. Grant said Freer was fifty years ahead of the rest of the magic world.

In this collection of rare material, you will learn some of Winston Freer's most famous secrets: freezing ice in his bare hand, his no-key Linking Rings, his uncanny rope methods, growing a real tree by magic, and other impossibilities.

The Adventures of Winston Freer collects 200 pages of material with 50 effects, combining Freer's booklets and articles, an incredible collection of his letters, memorabilia, news items, sketches, and notes to provide an unprecedented look at this brilliant creator. You'll even see a brief video of Freer performing his suspension in 1941! This CD will reveal the man behind some of the most daring and creative magic of our time.
