

Instant Ring (silver/black, Size 11) by Viktor Voitko

Our ring takes the classic "Coin in a Bottle trick" to the next level.

A thick, massive, metal ring, which the viewer checked, goes into the bottle several times. And not through the hole in the neck of the bottle. Because the ring is larger.

We have three size (10, 11 and 12 sizes).

Specification:

- We have three size (10, 11 and 12 sizes)
- Compact props
