

Gold Foil Black Roses Casino

Some say the Black Roses Casino never had a front door.
You didn't find it - it found you.

Behind velvet curtains, one deck ruled the table: sleek, minimal, and trusted by those who played for keeps.
Now, that legendary deck is finally within reach.

The **Black Roses Casino Gold Foil Edition** features a series of hidden reveals, custom faces, and striking gold foil on the faces, backs, and tuck box - designed for magicians, collectors, and anyone who demands elegance in every detail.

Now, for the first time, the **Black Roses Casino Gold Foil Edition** leaves the table.

Only a few remain. When they're gone - the game is over.
