

Mystery Box by IARVEL MAGIC

Mental cubes and dice are iconic tools used by mentalists worldwide, allowing them to accurately reveal spectators' choices even when looking away, blindfolded, or not even present in the room.

For years, it felt like these tools had reached their limit in innovation—until now. After countless hours of research, design, and testing, we proudly present the **MYSTERY BOX**: an entirely new and groundbreaking way to bring the mental cube back into your routines with a fresh twist.

The Mystery Box is the **world's first mental cube designed to be gifted to your spectators** as a memorable keepsake after your performance. Fully customizable, it allows you to adapt your routines around variables chosen by you or your audience, giving you complete creative control.

What truly sets the Mystery Box apart is the integration of **the smallest fully functional time-control watch ever created**—the **IARVEL Watch Nano**. By adding the element of time to your effects, you unlock endless possibilities for fun, surprising, and mind-blowing routines that engage your spectators on a whole new level.

Whether you are a professional mentalist or a passionate performer, the Mystery Box will transform your shows and leave your audiences with an unforgettable souvenir—and a mystery they will never solve.
