

## Rabbid (Large)

This outrageous rabbit is the perfect "toss away" bit for today's "hit-them-and-run" guerilla-style humor.

Suprise your audience with something totally unexpected!

The Rabbid! latex production rabbit will fit any hat, and has been designed to collapse small enough to fit a standard dove pan. You can also produce it from a square circle, production box, or in any manner that you would use a rubber chicken...but expect a wilder reaction!

Turns the traditional "rabbit-from-hat" on its ear!
