

Pro-Phesy by Smagic Productions

Accurately predict audience choice.

Bring your **Pro-Phesy** and walk to the crowd in front of you, then ask "Which of the 52 cards do you like best?" You will take out an envelope and then give it to the audience to open themselves, inside is the result they have chosen. Not only asking questions about 52 cards, you can create your own questions depending on your ideas. The effect ends with perfectly clean hands. Perfect.
