

Seer Pendant by Jackie Zhao and JT Magic

Seer Pendant

introduces a novel way to perform a revelation. For the first time ever, a necklace becomes the medium for prediction-using projection through a crystal pendant.

Effect

You wear a simple, elegant necklace with a crystal sphere as its centerpiece. A spectator freely selects a card. Then, using the flashlight on their phone, they shine light through the crystal. To their amazement, the projection on the wall-or even the ceiling-reveals their chosen card.

The experience doesn't stop there: when they peer directly into the crystal itself, the image of their selection appears within, as if they were gazing into a real fortune teller's crystal ball.

Key Features

- A truly original revelation method-captivating and unforgettable.
- Sleek, modern design suitable for everyday wear.
- Natural, impromptu performance-perfect for casual or social settings.
- Works in almost any environment: projection on most surfaces or direct viewing through the crystal.
- Strong visual impact for both small groups and larger audiences-ideal for theatre, gatherings, or even virtual performances over video calls. Also, highly suitable for commercial shows and makes a powerful piece for short-form video performances.

Seer Pendant

is not just a prop-it's a fusion of elegant design and powerful magic. Whether worn as a subtle accessory or presented as the centerpiece of a performance, it opens up a new realm of possibilities for revelations.
