

Ultra Smoke by Bond Lee, Wenzel & MS Magic

Gaze into the smoke, where mysteries awaken.

Now, you can channel magic with instant, billowing clouds of smoke at your command. Introducing **Ultra Smoke**-the ultimate concealment smoke device.

After the remarkable success of Nothing GEN3, the market's smallest smoke device, we've been eager to create something for grander performances. Now, we're excited to introduce a new smoke device, specially crafted for parlor and stage performers, delivering impressive clouds of smoke to elevate any show.

Unmatched Power in Seconds

Our advanced Coil & Circulation Technology generates dense, theatrical-grade smoke in an instant, transforming any stage, live event, or TV production into a realm of intrigue. The proprietary smoke liquid formula delivers velvet-thick, harmless plumes that linger dramatically while remaining entirely safe for performers and audiences.

Engineered for Versatility

Equipped with a multi-nozzle adaptive system, Super Smoke seamlessly adjusts to any environment-from intimate theater setups to grand arena spectacles. Its 100% silent operation ensures absolute stealth, keeping the focus on your art, not the mechanics.

Crafted for Endurance

Encased in a rugged, premium-grade shell, Ultra Smoke includes long-life batteries and a precision-designed liquid tank, delivering extended, uninterrupted smoke output for seamless performances. No detail is overlooked: every component is built for reliability, whether on tour or in the studio.

The Art of Concealment, Perfected

Secretive. Dynamic. Uncompromising.

Ultra Smoke isn't just a device-it's your portal to creating unforgettable moments. Let the smoke rise, and let your imagination take flight.

Device size: 9.6cm x 4cm x 1.5cm
