

Slick by Alan Rorrison and Mark Mason

We are super excited to bring you a revolutionary way to peek, **ANY WORD, NUMBER, SYMBOL**, etc.

**NO HOLES, NO ELECTRONICS,
NO PRIVACY GLASS, NO QUESTIONS,
NO MIRRORS. NO LIGHT, NOTHING.**

(Well there is something, but you will **NEVER GUESS**)

From a small credit card/business card size holder you remove your business card. The spectator is asked to write down any word, number, etc. The card is slid back into your credit cardholder. You **REALLY** do not see what they have written. Next, you slide **ANY** credit card behind their card, **COMPLETELY SANDWICHING THEIR INFORMATION**. Immediately you hand them the business cardholder. Under these **IMPOSSIBLE CONDITIONS**, you have the **INFORMATION**. You really have to see this to believe how clean it is.

I have **NEVER** seen a method like this before.

I predict you will love **SLICK**. Amazing method.

Also comes with a knockout bonus routine that is built into the gimmick.
