

The 1902 Sessions Deck by The Magic Apple

The **1902 Sessions** isn't just a stack of 54 pieces of paper, but it represents TWENTY ONE YEARS in the making. There is no other deck of cards that stands for magic, supports session with friends and is the result of countless hours helping people become better magicians than this 1902 deck of cards. Luke Libero, Tony Picasso and I have spent hours creating and perfecting this deluxe USPCC printed deck of cards.

"The 1902 Sessions at the Magic Apple is where we seek, share, and show knowledge; with discussion, experimentation, and performance. Skill sets emerge, that inspires us to be distinguishable, get in the game, and make good art. The result is intelligent writing, expert demonstrations, and a whole lot of daring. Most important is the cheerful camaraderie of everlasting friends and memories... Pals, Pasteboards, Panache."

VERY LIMITED EDITION - There are 2000 of them that are available and won't be printed again
