

Mind Game Pro by Tora Magic

Show a pad, consisting of the cover and the image of a human mind. Ask a viewer to write a color, a name, a Pin (or other) in the white space representing the mind. Then have him close the pad so that no one can read what he just wrote. Incredibly, you will be able to reveal to the public what the viewer had written a few moments before.

- Simple and pocket-sized, you will always carry it with you.
- The image of the mind is printed on special material, so that you can use the pens for the erasable whiteboards.
