

## Appearing Candle - White

The magician steps onto the stage and makes an elegant candle appear out of nowhere at his fingertips. Or, after showing a silk, he blows on it, and out pops the candle from its folds!

An astonishing magic trick that will leave the audience speechless.

- The appearance is quite strong.
- Once it appears, the candle can be safely lit.
- The white of this candle is a "waxy" white, much like the color of a real wax candle. White silks (30 and 45 cm) are not provided.
