King Arthur V2 (Golden Dawn) by KING STAR - Pokerdeck

It follows the story of "The Sword in the Stone", at this moment King Arthur has just conquered Rome and received the papal coronation, reaching the most glorious moment of her reign.

The back of card depicts the scene of the Battle of the Barrow Downs. At this moment, the title "The Red Dragon of Britain" is personified, symbolizing the extremely angry King Arthur. Beneath the resplendent gold is an endless sea of blood and fire, even the Sword in the Lake is marked with the patterns of flames, and the last glimmer of hope of the empire is thus overshadowed by the King's wrath.

Two Joker cards: The confrontation between King Arthur and Mordred in the fateful battle of Camlann.
