

João Miranda Magic presents Royal Fantasy (Jumbo) by Lubor Fidler

Royal Fantasy

is Lubor Fiedler's astonishing reimagining of Brother John Hamman's timeless classic.

Four Kings are displayed openly... and right before their eyes, they transform into four spot cards. It's smooth. It's clean. It's deeply fooling. This isn't just a card trick - it's visual magic at its finest.

Now available in both Jumbo and Poker-size editions, Royal Fantasy has been completely redesigned for today's performer. Each card is printed on ultra-durable, matte-finished stock and coated for maximum longevity, ensuring a professional look and feel every time you perform.

This release marks the beginning of the Lubor Fiedler Collection by João Miranda, created in collaboration with acclaimed New York inventor Mark Setteducati, who was a close friend of Lubor.
