

IMPOSSIBLE (Blue) by Mickael Chatelain

Once again, Mickael Chatelain offers us an incredible effect, an impossible one!

So impossible that we called it... **IMPOSSIBLE created by Mickael Chatelain**

Imagine the following scene, friends...

Take a small envelope out of your pocket.

This envelope is written "PREDICTION"!

Place the envelope in a prominent place on your table, for example! You can even leave it in your spectator's hands if you wish; it's just an envelope.

Now take out your deck of cards.

Show the front and back; it's a complete deck where all the cards are different!

Spread the cards on the table and invite one of your spectators to choose one!

We imagine this card is the KING OF HEARTS.

Give a sheet of paper with a few stickers and ask your spectator to sign one of them using your marker!

Peel off the signed sticker and stick it right in the middle of the KING OF HEARTS!

Be careful, the signed sticker is actually stuck to the spectator's card; no illusions or anything like that!

Now show everyone the KING OF HEARTS with the signed sticker!

Slowly, the KING OF HEARTS is placed somewhere in the ribbon of cards!

Show it one last time, it's really important!

Now imagine: THE IMPOSSIBLE!

Explain to your spectators that they've been traveling through time all along... and that it's completely impossible for the KING OF HEARTS to have been chosen in the game!

IMPOSSIBLE because the KING OF HEARTS has been in the prediction envelope since the beginning! Yes, in the envelope on the table, or in the one he's holding in his own hand!

Your spectators can't believe it for a second, and yet...

Take the envelope (on the table or in your spectator's hands).

With your fingertips, slowly open it...

Inside, there is one card, and only one!

Take it out and show it to your spectators; it's indeed the KING OF HEARTS!

The sticker, actually affixed and signed by the spectator himself, proves that it's indeed the card chosen a few seconds earlier!

How is this possible?

Believe us, this effect will leave a lasting impression, a magical impact on your spectators' minds!

Remember these highlights points:

- Easy to perform!
- No manipulation required!
- The envelope can be placed on the table, the floor, the ceiling, etc.
- Reset in seconds!
- Several variations are explained!
- Clean as can be! The card is displayed until the last second! And yet it ends up in the prediction envelope!
