

Instant Silk Change By Vincenzo Di Fatta

The magician shows a red silk... a simple tap with the magic wand, and right before the audience's astonished eyes, it visually transforms into a yellow silk!

This special wand doesn't just change colors — it's the perfect tool to unleash your creativity. You'll also be able to:

- turn a large silk into a small one;
- transform a dirty handkerchief into a clean one;
- reveal the value of a playing card or a secret message printed on the fabric;
- make the silk vanish completely and visually in front of the spectators!

A magical, visual, and impactful effect... that does require some practice to perform correctly.

The package includes:

- 1 special magic wand
- 2 silk handkerchiefs (30x30 cm – one red, one yellow)

Please note that the effect will require a certain practice.

Perfect for stage shows and children's magic.

A classic effect with a modern twist that leaves a lasting impression!
