

Good Pals King Logo - Pokerdeck

Limited & Numbered Edition of 375.

Introducing the third unique release from Good Pals! Good Pals Logo Playing Cards follows on from our previous releases (Chancers & Halloween Tales) with a classical approach to playing cards suitable for game play and magic whilst also keeping that Good Pals vibe throughout.

The **King Logo** edition features the same playing cards on the faces as the Red Logo deck, however we decided to create a new tuck + back design. We don't often opt for black and white decks, but this design just feels clean!

This deck offers a minimal aesthetic whilst keeping a rugged Good Pals feel. The court cards feature flesh-faced characters for the first time (as seen below). However, Good Pals is known for their skeletal characters, so the diamonds + spades feature skeletal variants of the hearts and clubs respectively.

The number cards are classic in appearance but tweaked to feel more like a Good Pals design. All four aces in the deck are enlarged, however our ace of spades takes center stage.

We believe these logo decks strike the perfect balance between Good Pals branding, traditional card design, practicality and collectability. The logo decks are a staple within the Good Pals collection and are designed to be an every day carry or even a workers deck.

Deck Specs:
