

Manifest by Josh Zandman

Introducing **MANIFEST - The Time Machine (New Version)**

A freely selected image from any page manifests itself into its physical version!

Manifest

(Physical Objects Not Included)

Your spectator opens the book to any page and finds an image. She can of course change her mind.

You ask her to imagine taking this image from the book, put it in a small pouch, and place it into your front pocket (or wherever you want).

You reach into the pocket she imagined placing the image into, and remove a small pouch! For the first time, she says what the image is out loud. She opens the pouch and pulls out the physical version of the image!

Keep in mind that you don't have to manifest an object. You can do a drawing duplication or a straightforward mind reading routine.

ALSO INCLUDES:

Hypnotic

Choose from 2 hypnotic sentences: Hypnotize your spectator to either talk like a Minion or reveal their deepest, darkest (and funniest) desire! Another spectator can read the sentence and it's totally normal!

Pegasus Money Page

A previously selected page impossibly vanishes from the book! It can reappear wherever you'd like and you can show that the ripped edges fit perfectly together. In addition to revealing a word in the first two sentences, you can also manifest the exact amount of gold coins your spectator is thinking of - the Pegasus Page does all the work!

Super Flashback

Instantly know the first word on any page without ever seeing the word! Nothing to memorize, no guessing or misses.

Tossed Out Book

The classic Tossed Out Deck, but with a book. Five spectators each choose a word and you instantly know their words!

Reverse Book Test

A spectator stops you on ANY page in ANY book and you will know a word on the same page in The Time Machine!
