

Mylar Production Fans (Set of 3)

These mylar fans are easy to use and re-use in any production equipment such as square and circle, drawer box, etc.

They take up very little space and expand to a large display.

The fans can be concealed easily on the body for body load productions. Fitting them up the sleeves is easy, or putting them into pockets, down the trousers, etc.

They can also be loaded into vanishing cane. Produce them out of silks.

There are many uses for these beautiful fans. Talk about packing small but plays big!

You should see light reflect in the Mylar. Sparkling!

Folded they are approx. 12" long x 1" x 0.2"

Each pack contains 3 fans in random colors.
