

B.H. Bill Production 2.0 by Juan Pablo (GBP)

Would you like to be able to show both hands empty and suddenly make a bill appear at the tip of your fingers!!! ... but not just one but by showing your hands empty again make two, three, four and five bills appear now!!!

Exactly that is what you can achieve with **B.H. Bill Production.2.0!!!!**

B. H. Bill production 2.0 is ideal to perform it "close up" or "stage "since you can do it with a coverage angle of 180 degrees. All you need is a small gimmick that you will carry in your pocket ready so you can perform it whenever you want, both in a bar with friends or on a stage with a large audience!!!

B. H. Bill production 2.0 is super easy to do and resets in seconds. I have used it constantly for many years and the effect for the audience is super strong and direct!!!
