

## Huzzle Cast Keyring - Difficulty level 2

Level 2 is a challenge for smart brats while still fascinating for adults.

The words “Key” and “Ring” should be properly lined up with each other. If you try to put the pieces back together without lining up the words correctly, you will have failed even after achieving what appears at first to be a successful matching.

It should read “Key Ring” even when upside down.

Word design is the work of ambigram genius Scott Kim. Puzzle designed by Oskar van Deventer.
