

Stage Size B.S. Board by Jeff Stewart

A funny and surprising comedy routine for entertainers.

The pocket size version of the BS Board was originally released in the 1980s using laminated cardboard. In 2008 it was reissued, only this time it was printed on plastic. It has been a huge seller because it always gets great reactions.

This is the first time it has been made available for stage performers. Meir Yedid has been closing his stage shows with it for 15+ years and magicians have been begging him to release the stage version.

It is not a magic routine. It is a comedy bit that can be used anytime during a show. In your most sincere voice, you explain why you decided to become a magician by reading the printed board, "Being an entertainer is a unique opportunity which lets me bring joy into your lives..." Once you finish reading the sentiment, fold the B.S. Board as you say, "And I mean that sincerely," the spectators will slowly notice what the first letter of every line now spells, which will cause hysterical laughter.

Overall size: Closed (approx. 12.5" x15.5"), Open (approx. 15.5" x 23"). Made of printed and laminated vinyl that is applied to corrugated plastic with a Vinyl/plastic hinge. Includes access to an online video tutorial. Ideal for stage shows, banquets, comedy clubs, and emcee work.

Comes complete with the BS Board and instructions. A Meir Yedid Magic product.
