

Cthulhu: Eclipse of Aeons deck by Evokad

In this project, we present three works to you all - all of them use the grating technique on the card boxes to showcase the bizarre experiences of the legendary investigators in the Cthulhu Mythos.

In addition to the Investigator theme, we will also specially release a "Dreamscape" theme deck - "Cryogenic Mirage" Apart from the grating effect, we added an outer sleeve box to enhance its texture.

Front grating: The transformation effect of the silver key.

Back grating: The change in Pisri's pupils symbolizes the mental invasion of the Is people.

"Luminescence of Yore" and **"Eclipse of Aeons"** feature four legendary investigators from the Cthulhu Mythos as their main characters: Randolph Carter, Robert Black, Henry Armitage and Nathaniel Wingate Peasley.
