

Ignite (Black) by Gentlemen's Magic & Urbain

Elegant and stylish, **Ignite** has been built by and for the performers looking for a professional tool tailored to their needs. Make objects appear, vanish or transform in a flash of fire.

Discover the ultimate flasher for workers

Ignite has been built by and for the performers looking for a professional tool tailored to their needs. An accessory they can keep on them at all times and take out for their audience above all suspicion. It is not a simple lighter nor a flasher but a powerful weapon ready to amaze. **Versatile and practical** you will be able to perform an endless number of effects...

If you love performing, you'll love Ignite.

Appear, vanish, transform

Ignite will help you make you vanish and change more impactful than ever before - a brand-new feature for a flasher.

Highlight your routines' climaxes in close-up, parlor, or stage conditions. Vanish or transform a borrowed ring in a burst of light, make a pickpocketed watch appear at the end of your act, vanish a pool ball, a coin or even transform it into a jumbo one!

It is an easy tool to use: **if you know how to put a lighter on, you know how to use Ignite.**

Always ready to flash

With its dedicated storage compartment, **Ignite** can carry up to 50 bursts. Reload in few seconds and get ready to flash at every table - perfect for the walk-around pro.

A stylish and easy-to-use friend

No need to hide your flasher, **Ignite** is always in plain view. Its shell has been built from brass, a durable and resistant material that will keep your buddy in

good shape.

What will Urbain teach you?

- How to take care of your gimmick to keep it for life
- His appearing techniques - all sweet eye-candy
- His vanishing techniques - including a borrowed ring vanish, completely impromptu
- CGI-like transformations
- Several routines ideas
- As a bonus, he also teaches his **complete One-Coin Routine** - straight from his repertoire
