

Sharpie Wand by Alan Wong

The **Sharpie Wand** is like the ever-popular Sherpa Shell for Sharpie marker that looks like a magic wand.

This is custom made for the Sharpie and using the original Sharpie cap fused into the tip so it will not dry out.

The material is made of high-quality anodized aluminum and powder coated paint with scratch resistant finish.

This may well be in the category of *"Every Magician Must Have One!"*, fully functional as a magic wand and a Sharpie.

Just easily replace the Sharpie when you need a new one.

Fits into your pocket as a Sharpie and as a magic wand. It's both!
