

## Royal Sanctuary Noble (foil) Kings - Pokerdeck

Legend tells of the **Royal Sanctuary**, a sacred refuge created by the gods as a tribute to the nobility and honor of wise and just rulers. Hidden and protected by ancestral magic, it was a place of divine counsel, where only the purest kings, queens, and warriors could seek celestial wisdom and blessings to guide their people.

The **Royal Sanctuary Playing Cards** honor this legendary legacy, embodying the grandeur and mysticism of this mythical place. Every design reflects the solemnity and divine presence of the sanctuary, reminding us of the eternal values of nobility, wisdom, and power.

The **Noble Editions** of the Royal Sanctuary represent the pinnacle of luxury and elegance. These exclusive tuck cases are made without any printing; instead, they feature elaborate foils in three colors (black, gold and silver/green) on luxurious black stock. This technique not only enhances the aesthetic appeal but also emphasizes the divine essence and nobility of the decks.
